Conference Highlights – Outlook

The conference programme will be shaped by the people whose views matter most – the audience. Conference topic ideas will be generated by discussions with delegates and leading industry experts during the course of the year.

Opening Keynote Address

The Forum offers three keynotes to present you a general economic summary, a micro view to the actual situation in the banking industry and an outlook of future matters.

Conference

The programme will be designed to include an interactive exchange of information on hot topics and latest trends which inspire attendees, provide them with new ideas and key points to take away to implement within their organisations. The conference programme will consist of workshops, think-tanks and personal development sessions based on feedback from our attending delegates.

Round Table Discussions

Several round table discussions will feature small numbers of senior professionals based on key themes. All group sessions will be led by expert moderators to give a high-level view of the industry, offering ideas and insights to help develop new strategies and goals.

Supplier Presentations

All suppliers have the chance to submit a supplier presentation. Delegates will evaluate and choose those presentations of most interest and relevance to them. The highest-rated presentations will be included in the conference programme.

“An excellent conference providing excellent presentations and contributions from highly regarded experts and also the opportunity to network in a group of professionals with similar goals!”

Dr. Filis Sidiropoulos, Sanitas Krankenversicherung AG
